

Meet John

John does this

←

(Good for John.)

It's about people.

Will that information-age business bring its tax base and white collar workforce to your community, or to the one next door? You need to be technology-ready when they call.

They'll want easy broadband and wireless, they'll want to build or adapt buildings that accommodate computers and they'll want it FAST. Or else.

We wrote the technology tool kits for Washtenaw, Macomb and Oakland counties. Whether you're urban, suburban or rural, we can customize your ordinances and policies to attract the development you want.

Call John Enos at 734-662-2200

Planning is about the people of your community – their comfort, happiness, safety and prosperity. When you choose Carlisle/Wortman Associates, you get more than plans. You get the creativity and experience of *our people.*
